## Control summary

| Control              | Sev    | Pass | Fail | Skip | Evidences (articles)                            |
|----------------------|--------|------|------|------|-------------------------------------------------|
| customer-managed-key | medium | 0    | 1    | 0    | GDPR Art. 32                                    |
| encryption-at-rest   | medium | 0    | 1    | 0    | GDPR Art. 32                                    |
| eu-region-placement  | high   | 0    | 3    | 0    | GDPR Art. 44, GDPR Art. 45, EU Data Act Art. 32 |
| no-non-eu-egress     | high   | 0    | 4    | 0    | GDPR Art. 44, GDPR Art. 46                      |

## Failures

- [customer-managed-key] PersistentVolumeClaim/orders-data (shop)**  
no customer-managed key (annotation regionlock.io/cmkey-id, or a StorageClass with a CMK parameter) {GDPR Art. 32}
- [encryption-at-rest] PersistentVolumeClaim/orders-data (shop)**  
encryption at rest not declared (label/annotation regionlock.io/encrypted=true, or an encrypted StorageClass) {GDPR Art. 32}
- [eu-region-placement] Deployment/checkout-api (shop)**  
can schedule in non-EU region(s): us-east-1 {GDPR Art. 44, GDPR Art. 45, EU Data Act Art. 32}
- [eu-region-placement] Deployment/recommender (shop)**  
can schedule in non-EU region(s): us-west-2 {GDPR Art. 44, GDPR Art. 45, EU Data Act Art. 32}
- [eu-region-placement] StatefulSet/sessions (shop)**  
no EU region constraint declared (pin topology.kubernetes.io/region to an EU region on EVERY nodeAffinity term / nodeSelector, or set clusterRegion for a single-region cluster) {GDPR Art. 44, GDPR Art. 45, EU Data Act Art. 32}
- [no-non-eu-egress] NetworkPolicy/allow-all-egress (shop)**  
permits unrestricted egress 0.0.0.0/0 (can reach non-EU destinations) {GDPR Art. 44, GDPR Art. 46}
- [no-non-eu-egress] Service/analytics-proxy (shop)**  
Service proxies to external endpoint "metrics.us-analytics.example.com" (potential extra-EU transfer) {GDPR Art. 44, GDPR Art. 46}
- [no-non-eu-egress] Service/legacy-billing (shop)**  
Service exposes externalIPs 198.51.100.7 (destination not verifiable as EU) {GDPR Art. 44, GDPR Art. 46}
- [no-non-eu-egress] NetworkPolicy/unrestricted-egress (shop)**  
permits egress to any destination (egress rule with no peer selector) {GDPR Art. 44, GDPR Art. 46}

## Namespaces

| Namespace | Pass | Fail | Skip | Score |
|-----------|------|------|------|-------|
| shop      | 0    | 9    | 0    | 0%    |

## Integrity

sha256: f373de51f1ea1326203d625f88a915de344e0242860cd0508f3d0e500857804b

This report evidences technical and organizational placement controls enforced on the cluster. It is not a cryptographic attestation that data

*never physically left the in-territory region.*
